

We've got more plans... come and see them

Causey Development Trust would like to have your response to its design proposals for **The Causey - transforming a place.**

You may remember The Causey, our award-winning temporary transformation in 2007. Since then CDT has been working towards the permanent transformation of West Crosscauseway from a space for cars into a place for people.

Don't miss this opportunity to comment on the latest proposals and influence how The Causey is designed for and used by people in the future. We'd like to hear what you think.
